Seven years after his acclaimed and bestselling *The Kaufman Repertoire for Black and White*, Grandmaster Larry Kaufman is back with his new repertoire book, covering the entire scope of chess openings for both White and Black, in one volume. Two important developments made this book necessary. Larry Kaufman, who himself routinely plays the lines he advocates to others, discovered that after 1.d4 (the recommendation in his previous book) it became nearly impossible to show a consistent advantage for White, especially against Grunfeld and Nimzo/Ragozin defenses. The other factor was that chess engines have become so much stronger. Larry Kaufman presents a completely new White repertoire with 1.e4 aiming for an objective advantage in the simplest practical manner. You are presented with two options, while you don't have to play the sharpest lines. The Black repertoire has been thoroughly revised and updated, and three new chapters have been added. *Kaufman's New Repertoire for Black and White* is the first opening book that is primarily based on Monte Carlo search. The highly original analysis has resulted in loads of improvements on existing theory. This is a lucidly explained, ready-to-go and easy-to-digest repertoire with sound, practical lines that do not outdate rapidly and are suitable for masters while perfectly accessible for amateurs.
