Opis produktu

Książka w języku angielskim.
Miękka okładka.
288 stron.

The journey into the world of sparkling short games continues. Chess in Miniature: Volume 2 takes up where the first book left off, exploring the next set of 'Secrets' that underpin brilliant miniatures. From choosing appropriate openings to exploiting greed, from classical sacrifices to advanced calculation, this volume reveals how winners consistently shape games that delight and instruct.

With carefully chosen examples and insightful commentary, the book not only entertains but also inspires readers to attempt their own mini-masterpieces. Whether you want to sharpen your tactical instincts, enrich your opening play, or simply enjoy some of the most striking games in chess, this volume will both instruct and delight.

David LeMoir is an experienced chess player and the author of several successful books, with the canny knack of presenting new ways to look at sacrifices and tactics.
