Opis produktu

Wersja językowa książki - angielska.

In **Strategic Play** Jacob Aagaard digs deep into the most complex area of chess thinking. The games and exercises in this book transcend regular chess skills, such as pattern recognition, calculation and positional analysis. Building on the two previous books in the Grandmaster Preparation series, this book challenges the reader to explore the complexities of chess, offering clarity and understanding through Aagaard’s straightforward approach.

Grandmaster **Jacob Aagaard** won the British Championship at his first and only attempt. He is the only chess author to have received the Boleslavsky Medal as well as the Guardian, ECF and ChessCafe Book of the Year awards. He is a FIDE Senior Trainer, and on his retirement from professional chess he has taken up the post of trainer for the Danish elite. His training material is used by amateurs, grandmasters and World Champions alike.

The **Grandmaster Preparation** series is aimed at ambitious players.
